

Hydraulic power pack 15kW

Type: HPU-15-28,2-01

This unit is equipped with a gear pump, suspended in the oil, which is driven by a 15kW 400V electric motor. The unit is easy to operate for all applications by means of manually operated valve.

On the control box there is a possibility to extend the controls with an external start/stop and/or emergency stop device.

The frame of the unit is provided with lifting eyes and is by means of swivel wheels easy to move by hand. This makes this unit very practical for work in a workshop.

Dimensions:

Height:	120 cm
Width:	50 cm
Depth:	63 cm
Weight:	250 kg

Characteristics:

Fluid capacity:	90 litre
Pump displacement:	28,2cc
Max output flow:	40 L/min at 200 bar
Electric motor power:	15 kW 400VAC
Electrical connection	32A connector 5 poles, 3 phase + PE + N Connection for emergency stop Connection for remote control
Hydraulic connection	½" male quick coupling for the pressure ½" male quick coupling for the return ½" female quick coupling for the drain
Valve	Manually operated one-way valve with ½" quick couplings.
Facilities:	Swivel wheels Lifting eyes
