

Hydraulic power pack 1,5kW

Type: HPU-1,5-1-01

This unit is equipped with a high pressure pump, suspended in the oil, which is driven by a 1,5kW 400V electric motor. The unit is easy to operate for all applications by means of manually operated valve. The high pressure pump can reach a maximum pressure of 450 bar. This makes the HPU very suitable for pressure testing piping.

The frame of the unit is provided with lifting eyes and is by means of swivel wheels easy to move by hand. This makes this unit very practical for work in a workshop.

Dimensions:

Height:	95 cm
Width:	50 cm
Depth:	85 cm
Weight:	100 kg

Characteristics:

Fluid capacity:	40 litre
Pump displacement:	1 cc
Max output flow:	1,5 L/min at 450 bar
Electric motor power:	1,5 kW 400VAC
Electrical connection	16A connector 5 poles, 3 phase + PE
Hydraulic connection	¼" male quick coupling for the pressure ¼" male quick coupling for the return ½" female quick coupling for the drain
Valve	2-way Enerpac valve
Facilities:	Swivel wheels Lifting eyes
